Comments

The loss for the Company amounted to \$1,572,509 (30 June 2018: \$2,328,668).

On 4 December 2017, the Company was admitted to the official list of the Australian Securities Exchange ('ASX') after successfully raising \$6,000,000 before expenses from the issue of 30,000,000 fully paid ordinary shares at \$0.20 per share. Official quotation of the Company's securities commenced on 6 December 2017.

Losses after income tax decreased by 32% on the prior year. The Company supplied and constructed and sold its first Car Park System to a Subaru dealership in Victoria Park, Western Australia for \$690,000 and in addition completed a number of fee generating detailed and concept car park designs for a number of clients in the airport, commercial property and car dealership industries. Operating expenses during the period were principally related to component expenses for the delivery of the completed Car Park System together with general employee expenses, corporate overheads and research and development expenditure.

The Company's cash and cash equivalents were \$2,433,347 at 30 June 2019 (30 June 2018: \$3,936,616) and net assets at 30 June 2019 were \$2,442,904 (30 June 2018: \$3,695,291).

The operating cash outflows for the year were reduced by 14% to \$1,666,348 (30 June 2018: outflows of \$1,941,430) largely as a result of the sale of the Car Park System and completion of fee generating services. They also included a research and development tax rebate received during the year of \$469,245 (30 June 2018: rebate of \$97,164).

Financing cash inflows reduced by 97% to \$163,079 (30 June 2018: \$5,570,528) and were associated with the issue of listed options during the first half of the financial year.

The Company confirms in the period from admission to the official list of the ASX to 30 June 2019, that it used its cash and assets in a form readily convertible to cash, in a manner consistent with its business objectives.

As an early stage company, the Company's business model is highly dependent on the achievement of continued technical development success as well as future funding, customer engagement and general financial and economic factors.

CHAIRMAN'S REPORT TO SHAREHOLDERS

Dear Shareholder

On behalf of the Board I am pleased to present the 2019 Annual Report to shareholders.

During the past year the Company successfully completed and sold its first PARKD Car Parking System on behalf of a car dealership in metropolitan Perth. The delivery of the Car Parking System proved up the Company's patented technology and enabled further refinements via a number of research and development activities.

During the year the Company also conducted a number of fee generating detailed and concept designs for car parks on behalf of clients that operate in the airport, commercial, retail and automotive industries. Some of these included extensions to existing car park structures for which the Company's products are ideally suited. These early stage design works will potentially lead to the construction of PARKD Car Parking Systems across Australia.

The Company's business model continues to be focused on supplying and constructing the PARKD Car Park System to various markets for use as permanent and temporary car parking structures. Additional commercialisation options include leasing the PARKD Car Park System to clients and licensing the PARKD Car Park System to licensees in consideration of a licence fee. Several international patent applications have been lodged with a view of potentially exporting the Company's technology in the medium term.

During the year, the Company was pleased to welcome Mr Robert Martin as a Non-Executive Director. Mr Martin is a successful entrepreneur who ran and partly owned a mining services business and is now consulting for a number of early stage companies, including the provision of seed capital. The Company also appointed a senior and experienced finance executive, Len Troncone, as CEO. Len has a wealth of experience in early post-IPO enterprises that became significant and profitable ASX listed enterprises including United Group Limited and Decmil Group Limited (formerly Paladio Group Limited). Most recently he played a lead role in the vending of a large private business to an international private equity group.

I take the opportunity of thanking shareholders for their continued support. I am a substantial shareholder of the Company and look forward to the next stage of the Company's development as it continues its efforts to commercialise its innovative PARKD Car Park System.

Yours faithfully

Mr Bronte Howson Non-Executive Chairman PARKD Limited

The directors present their report, together with the financial statements, on PARKD Limited (referred to hereafter as the 'Company') for the year ended 30 June 2019.

Directors

The following persons were directors of PARKD Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Bronte Howson
Bryant McLarty
Peter McUtchen
Robert Freedman
Robert Martin (appointed 1 March 2019)

Principal activities

During the period the principal continuing activities of the Company consisted of delivering a PARKD Car Park System to a vehicle dealership located in the Perth metropolitan area and developing and refining the Company's innovative and patented modular Car Parking System. The Company has intellectual property rights to aspects of an innovative lightweight concrete "modular" Car Parking System which minimises the structural weight providing the ability to pre-fabricate the car park offsite, thus minimising on-site works and disruption. In addition, the car park is relocatable and thus adaptable to parking demands by adding or subtracting to the structural levels of the car park. The PARKD Car Park System is currently designed for single and multi-level arrangements of up to 6 levels including the ground level. Off-site prefabrication also has the potential advantage to reduce construction time and construction cost when compared to traditional construction methods.

Dividends

There were no dividends paid during the year.

Review of operations

The loss for the Company amounted to \$1,572,509 (30 June 2018: \$2,328,668), a decrease of 32% in losses on the prior year.

The Company supplied and constructed and sold its first Car Park System to a Subaru dealership in Victoria Park, Western Australia for \$805,393 and in addition completed a number of fee generating detailed and concept car park designs for a number of clients in the airport, commercial property and car dealership industries. Operating expenses during the period were principally related to component expenses for the delivery of the completed Car Park System together with general employee expenses, corporate overheads.

The Company's cash and cash equivalents were \$2,433,347 at 30 June 2019 (30 June 2018: \$3,936,616) and net assets at 30 June 2019 were \$2,442,904 (30 June 2018: \$3,695,291).

The operating cash outflows for the year were reduced by 14% to \$1,666,348 (30 June 2018: outflows of \$1,941,430) largely as a result of the sale of the Car Park System and completion of fee generating services. They also included a research and development tax rebate received during the year of \$469,245 (30 June 2018: rebate of \$97,164).

Financing cash inflows reduced by 97% to \$163,079 (30 June 2018: \$5,570,528) and were associated with the issue of listed options during the first half of the financial year.

The Company confirms in the period from admission to the official list of the ASX to 30 June 2019, that it used its cash and assets in a form readily convertible to cash, in a manner consistent with its business objectives.

As an early stage company, the Company's business model is highly dependent on the achievement of continued technical development success as well as future funding, customer engagement and general financial and economic factors.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Company during the financial year.

PARKD LIMITED FOR THE YEAR ENDED 30 JUNE 2019

Matters subsequent to the end of the financial year

No other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Likely developments and expected results of operations

Information on likely developments in the operations of the Company and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the Company.

Environmental regulation

The Company is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Information on directors

Name: Bronte Howson

Title: Non-Executive Chairman

Qualifications: MAICD

Experience and expertise: Mr Howson has experience in the Australian automotive retailing industry in a career

spanning more than 35 years. He was appointed CEO of Automotive Holdings Group Limited (ASX: AHG) in January 2000 and became Managing Director in 2007 until 2017. Mr Howson led AHG from being a private group with operations largely based in Western Australia to becoming the nation's leading listed specialist automotive and

logistics group, establishing a track record of driving profitable growth.

Mr Howson is President and a life member of the East Perth Football Club and was awarded honorary life membership of Rocky Bay for his support of the charity. He was awarded the Medal in the Order of Australia in the 2016 Queen's Birthday honours list

for services to the automotive industry and to charities.

Length of service: Director since 10 May 2017

Other current directorships: None

Former directorships (last 3 years): Automotive Holdings Group Limited (ASX: AHG)

Special responsibilities: Member of Audit and Risk Committee and Chair of Remuneration and Nomination

Committee

Interests in shares: 6,372,474 Interests in options: 4,393,750

Contractual rights to shares: Nil

Name: Bryant McLarty

Title: Non-Executive Director

Experience and expertise: Mr McLarty is the Executive Chairman of Mac Equity Partners, a boutique Western

Australian stockbroking and corporate advisory firm operating since 2009. Clients include ASX listed, public and private companies, wholesale high net worth investors and overseas funds who are provided with a range of services including capital raising, share trading, corporate advisory, marketing, presentation, consulting and

strategic advice.

Mr McLarty has over 20 years' experience in public capital markets and raising capital for technology ventures. He was the Executive Chairman of PharmAust Limited (ASX: PAA), during which time it provided highly specialised medicinal and synthetic chemistry services on a contract basis to clients. He was also a Non-Executive Director of Avation PLC (LSE: AVAP), a specialist commercial passenger aircraft leasing company managing a fleet of 24 aircraft, from 2008 to 2013.

Mr McLarty was a Non-Executive Director of Hazer Group Limited (ASX: HZR) from

prior to its ASX listing until February 2017.

Length of service: Director since 21 December 2016

Other current directorships: None

Former directorships (last 3 years): Hazer Group Limited (ASX: HZR)

Special responsibilities: Chair of Audit and Risk Committee and Member of Remuneration and Nomination

Committee

Interests in shares: 4,239,219
Interests in options: 4,442,636

Contractual rights to shares: Nil

Name: Peter McUtchen

Title: Executive Director, Chief Operating Officer

Qualifications: B.Eng. (Civil Engineering)

Experience and expertise: Mr McUtchen has 14 years' experience in the structural design and construction of

specialist concrete buildings and structures. His experience in the construction industry was founded with the specialist subcontractor, Soletanche Freyssinet where he developed his expertise in the design and construction of post-tensioned structures and management of construction projects. Upon establishing the Freyssinet brand in the Western Australian market, he transitioned into the engineering consulting industry becoming the Practice Manager for ADG Engineers (a national structural and civil

engineering consultancy).

Mr McUtchen's experience with Freyssinet spanned 11 years in both Australia and the United Kingdom, where he specialised in the design of post-tensioned structures and management of the building and construction areas of the business. His work at ADG Engineers in Perth focused on providing complete structural designs and solutions for builders and developers whilst continuing to partner with specialist subcontractors in

the design of post-tensioned structures.

Mr McUtchen is the appointed President of the West Australian branch of the Concrete Institute of Australia where he represents corporate partners and individuals working in

the concrete industry.

Length of service: Director since 20 October 2016

Name: Robert Freedman
Title: Non-Executive Director

Qualifications: Member of the Institution of Engineers Australia and holds a Post Graduate Diploma in

Business Administration (W.A.I.T.)

Experience and expertise: Mr Freedman is the former Chairman and a current Non-Executive Director of SRG

Limited (ASX: SRG), a leading Australian specialist design and construction company with over 50 years' experience supporting the construction of high-profile global projects. He has been associated with SRG (then Structural Systems) since 1970 when he joined the business as founding Manager for Western Australia. He then held the role of Managing Director from 1985 until 2009 and has been a Director since 1985,

serving as Chairman of the Board between 2009 and 2014.

Over the past five decades at SRG, Mr Freedman has been involved in the design and construction of many iconic projects, including Centrepoint Tower and Stadium Australia in Sydney, Eleanor Schonell Bridge in Brisbane, Colonial Stadium and Rod Laver Arena in Melbourne, and the Emirates Tower in Dubai. He was responsible for establishing SRG's overseas operations in Asia, the United Kingdom, the Middle East and South Africa. He brings many strong global relationships from the construction

industry, as well as extensive corporate and ASX experience to PARKD.

Mr Freedman is also the current Chairman of Highway Construction, a West Australian owned civil engineering contractor specialising in the delivery and management of road,

bridge and pavement construction contracts across Australia.

Length of service: Director since 4 May 2018
Other current directorships: SRG Limited (ASX: SRG)

Former directorships (last 3 years): None

Special responsibilities: Member of Audit and Risk Committee and Member of Remuneration and Nomination

Committee

Interests in shares: 250,000 Interests in options: 1,250,000

Contractual rights to shares: Nil

Name: Robert Martin

Title: Non-Executive Director

Experience and expertise: Mr Martin has over 20 years' experience across the mining services, supply chain and

capital market sectors. Before joining the Company's board of directors, he operated a highly successful mining services company which became a leading provider of products and services to the mining industry and operated globally with offices across Australia and internationally. After 7 years of growth on growth revenue, profitability and expansion into multiple countries, Mr Martin's company was acquired by a prominent Perth business for an undisclosed multi-million dollar sum. Mr Martin now runs a family office in Western Australia with a focus on investing and supporting

emerging private and public businesses.

Length of service: Director since 1 March 2019
Other current directorships: JV Global Ltd (ASX: JVG)

Former directorships (last 3 years): None Special responsibilities: Nil Interests in shares: 745,156 Interests in options: Nil

Contractual rights to shares: 1,250,000 options over ordinary shares with an exercise price of \$0.30 and an expiry

date of 31 December 2020, subject to shareholder approval

'Other current directorships' quoted above are current directorships for listed entities only and excludes directorships of all other types of entities, unless otherwise stated.

'Former directorships (last 3 years)' quoted above are directorships held in the last 3 years for listed entities only and excludes directorships of all other types of entities, unless otherwise stated.

Company Secretary

Emma Waldon has held the role of Company Secretary since 28 November 2016. Emma has diverse global corporate advisory, capital markets and corporate governance experience having held roles in accounting and debt and equity capital markets in Australia and the United Kingdom. Emma qualified as a Chartered Accountant with Ernst & Young in Perth, worked as an Equities Analyst with Euroz Securities and spent 9 years in London with Bank of Scotland and Lloyds Bank originating and re-structuring debt finance for private equity leveraged buy-outs of businesses across Europe. Emma is currently also Company Secretary of Hazer Group Limited (ASX: HZR) and EMvision Medical Devices Limited (ASX: EMV) and a number of private companies. Emma has completed a Bachelor of Commerce at UWA, is a member of the Institute of Chartered Accountants of Australia and a Certificated Member of the Governance Institute of Australia.

Meetings of directors

The number of meetings of directors (including meetings of committees of directors) held during the year ended 30 June 2019, and the number of meetings attended by each director were:

Robert Freedman	11	11	2	2	1	1
Robert Martin	5	5	_	_	-	_

Held: represents the number of meetings held during the time the director held office.

Remuneration report (audited)

The remuneration report details the key management personnel remuneration arrangements for the Company, in accordance with the requirements of the Corporations Act 2001 and its regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the Company's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and conforms to the market best practice for the delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage / alignment of executive compensation
- transparency
- capital management

The Remuneration and Nomination Committee is responsible for determining and reviewing remuneration arrangements for its directors and executives. The performance of the Company depends on the quality of its directors and executives. The remuneration philosophy is to attract, motivate and retain high performance and high quality personnel and is based on the following factors:

Alignment to shareholders' interests:

- focuses on sustained growth in shareholder wealth, including growth in the share price, as well as focusing the executive on key non-financial drivers of value
- attracts and retains high calibre executives

Alignment to program participants' interests:

- rewards capability and experience
- reflects competitive reward for contribution to growth in shareholder wealth
- provides a clear structure for earning rewards

In accordance with best practice corporate governance, the structure of non-executive directors and executive remunerations are separate.

Non-executive directors' remuneration

Fees and payments to non-executive directors reflect the demands and responsibilities of their role. Non-executive directors' fees and payments are reviewed annually by the Remuneration and Nomination Committee. The Remuneration and Nomination Committee may, from time to time, receive advice from independent remuneration consultants to ensure non-executive directors' fees and payments are appropriate and in line with the market. The chairman's fees are determined independently to the fees of other non-executive directors based on comparative roles in the external market. The chairman is not present at any discussions relating to the determination of his own remuneration.

Non-executive directors do not receive any retirement benefits, other than statutory superannuation.

ASX listing rules require the aggregate non-executive director's remuneration be determined periodically by a general meeting. Aggregate fixed remuneration for all non-executive directors as determined by the Board is not to exceed \$300,000 per annum. Directors' fees cover all main board and committee activities.

The level of non-executive director fixed fees as at the reporting date are as follows:

Bronte Howson \$70,000 per annum Bryant McLarty \$35,000 per annum

Robert Freedman \$35,000 plus statutory superannuation per annum \$35,000 plus statutory superannuation per annum

Non-executive directors may also receive performance related compensation via options following receipt of shareholder approval. The issue of share based payments as part of non-executive director remuneration ensures that director remuneration is competitive with market standards as well as providing an incentive to pursue longer term success for the Company. It also reduces the demand on the cash resources of the Company and assists in ensuring the continuity of service of directors who have extensive knowledge of the Company, its business activities, assets and the industry in which it operates. Details of share-based compensation is contained in this report.

Executive remuneration

The Company aims to reward executives with a level and mix of remuneration based on their position and responsibility, which has both fixed and variable components.

The executive remuneration and reward framework has four components:

- base pay and non-monetary benefits
- short-term performance incentives
- share-based payments
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed annually based on individual and business unit performance, the overall performance of the Company and comparable market remunerations.

Executives may receive their fixed remuneration in the form of cash or other fringe benefits (for example, motor vehicle benefits) where it does not create any additional costs to the Company and provides additional value to the executive.

Performance based short-term incentives ('STI') may be provided to executives to align the targets of the business with the targets of those executives responsible for meeting those targets.

The long-term incentives ('LTI') include long service leave and share-based payments. Shares and options may be awarded to executives based on long-term incentive measures including increasing shareholder value. Share based LTIs issued to an Executive Director are subject to shareholder approval. The Nomination and Remuneration Committee reviewed the long-term equity-linked performance incentives specifically for executives during the year ended 30 June 2019.

Use of remuneration consultants

During the financial year ended 30 June 2019, the Company did not engage the services of independent remuneration consultants to review its existing remuneration policies and provide recommendations on how to improve both the STI and LTI programs.

Voting and comments made at the Company's Annual General Meeting ('AGM')

The Company received 98.82% of "for" votes on its Remuneration Report for the year ended 30 June 2018. The Company did not receive any specific feedback on the Remuneration Report at the AGM.

Details of remuneration

Other transactions with key management personnel and their related parties

During the financial year, the following payments were made to key management personnel and their related parties:

- Mac Equity Partners (International) Pty Ltd, a company controlled by Bryant McLarty, received \$60,000 in advisory fees;
 and
- Audi Centre Perth, of which Bronte Howson is Dealer Principle, paid \$10,000 to the Company as a fee for providing concept design services for a new showroom and car storage facility at the dealership.

All transactions were made on normal commercial terms and conditions and at market rates.

This concludes the remuneration report, which has been audited.

Opening balance represents options held on appointment (8 April 2019)

Represents listed options (ASX: PKDO) acquired pursuant to an Entitlement Option Issue Prospectus dated 18 July 2018.

Shares under option

Unissued ordinary shares of PARKD Limited under option at the date of this report are as follows:

Option series	Grant date	Expiry date	Exercise price	Number under option
Series A	4 November 2016	1 December 2020	\$0.30	9,000,000

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the Company or of any other body corporate.

Shares issued on the exercise of options

No ordinary shares of PARKD Limited were issued during the year ended 30 June 2019 and up to the date of this report on the exercise of options granted:

Indemnity and insurance of officers

The Company has indemnified the directors and executives of the Company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the Company paid a premium in respect of a contract to insure the directors and executives of the Company against a liability to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

Non-audit services

There were no amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor.

Officers of the Company who are former partners of RSM Australia Partners

There are no officers of the Company who are former partners of RSM Australia Partners.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is included in this financial report.

Audito

RSM Australia Partners continues in office in accordance with section 327 of the Corporations Act 2001.

PARKD LIMITED FOR THE YEAR ENDED 30 JUNE 2019

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors:

Mil Yilkher.

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New, revised or amending Accounting Standards and Interpretations adopted

The Company has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standards and Interpretations are most relevant to the Company.

AASB 9 Financial Instruments

The Company has adopted AASB 9 from 1 July 2018. The standard introduced new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows which arise on specified dates and that are solely principal and interest. A debt investment shall be measured at fair value through other comprehensive income if it is held within a business model whose objective is to both hold assets in order to collect contractual cash flows which arise on specified dates that are solely principal and interest as well as selling the asset on the basis of its fair value. All other financial assets are classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading or contingent consideration recognised in a business combination) in other comprehensive income ('OCI'). Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch. For financial liabilities designated at fair value through profit or loss, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the entity. New impairment requirements use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment is measured using a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. For receivables, a simplified approach to measuring expected credit losses using a lifetime expected loss allowance is available.

AASB 15 Revenue from Contracts with Customers

The Company has adopted AASB 15 from 1 July 2018. The standard provides a single comprehensive model for revenue recognition. The core principle of the standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard introduced a new contract-based revenue recognition model with a measurement approach that is based on an allocation of the transaction price. This is described further in the accounting policies below. Credit risk is presented separately as an expense rather than adjusted against revenue. Contracts with customers are presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Customer acquisition costs and costs to fulfil a contract can, subject to certain criteria, be capitalised as an asset and amortised over the contract period.

Impact of adoption

AASB 9 and AASB 15 were adopted using modified retrospective approach an as such comparatives have not been restated. There was no impact on adoption.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the Corporations Act 2001, as appropriate for forprofit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Note 1. Significant accounting policies (Cont'd)

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Foreign currency translation

The financial statements are presented in Australian dollars, which is PARKD Limited's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Revenue recognition

The Company recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Company identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognised as deferred revenue in the form of a separate refund liability.

Rendering of services

Revenue from a contract (based on terms of the contract) to provide services is recognised at the point upon the delivery of the service to the customers or over time as the services are rendered based on either a fixed price or an hourly rate.

Interest

Interest revenue is recognised as interest accrues using the effective interest method.

Other income

Other income is primarily the research and development tax refund received for a claim under the Commonwealth Government's Research and Development Tax Incentive Regime. Revenue is recorded once it is highly probable that the Company will receive the benefit.

Note 1. Significant accounting policies (Cont'd)

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a
 transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor
 taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the statement of cash flows presentation purposes, cash and cash equivalents also includes bank overdrafts, which are shown within borrowings in current liabilities on the statement of financial position.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Note 1. Significant accounting policies (Cont'd)

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of PARKD Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST receivable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Share-based payments

The Company provides benefits in the form of share-based payments, whereby persons render services in exchange for shares or rights over shares ('equity settled transactions'). The Company does not provide cash settled share-based payments.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using an option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the Company receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

Note 1. Significant accounting policies (Cont'd)

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the period in which the service conditions are fulfilled, ending on the date on which the relevant persons become fully entitled to the award (the 'vesting period'). The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

All changes in the liability are recognised in profit or loss. Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Company or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Company or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Research costs

Research costs are expensed in the period in which they are incurred.

Development costs are capitalised when it is probable that the project will be successful considering its commercial and technical feasibility; the Company is able to use or sell the asset; the Company has sufficient resources; and intent to complete the development and its costs can be measured reliably. Capitalised development costs are amortised on a straight line basis over the period of their expected benefit.

Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Comparative information

Other current assets and trade and other payable balances for the financial year ended 30 June 2018 have been restated for comparability purposes.

Note 1. Significant accounting policies (Cont'd)

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2019. The Company's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Company, are set out below

AASB 16 Leases

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured at the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred. A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The Company has made an assessment and determined that this standard will have little to no impact as it only has short term leases which are disclosed in note 18.

Note 2: Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Note 3. Operating segments

The Company has considered the requirements of AASB8 – Operating Segments and has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Company operates as a single segment being the development of an innovative modular parking system (the "PARKD Car Park System"). There is no difference between the audited financial report and the internal reports generated for review. The Company is domiciled in Australia and is currently in the development phase and has begun to generate revenue from operations in the current financial year. All the assets are located in Australia.

Note 4. Financial risk management objectives and policies

The Company's principal financial instruments comprise cash and short term deposits.

The Company manages its exposure to key financial risks, including interest rate and liquidity risk in accordance with its financial risk management policy. The objective of the policy is to support the delivery of its financial targets whilst protecting future financial security.

The Company uses different methods to measure and manage different types of risks to which it is exposed. These include monitoring levels of exposure to interest rate risk and assessments of market forecasts for interest rates. Liquidity risk is monitored through the development of future rolling cash flow forecasts.

Primary responsibility for identification and control of financial risks rests with the Board. The Board reviews and agrees policies for managing each of the risks identified below.

Interest rate risk

At reporting date, the Company had \$2,433,347 (2018: \$3,936,616) in cash and cash equivalents exposed to interest rate risk.

The Company's exposure to market interest rates relates primarily to cash and short-term deposits.

At reporting date, if interest rates had moved, as illustrated in the table below, with all other variables held constant, net loss and equity would have been affected as follows:

	Net loss		Equit	•	
	Higher / (lower) 2019 2018		Higher / (I 2019	ower) 2018	
	\$	\$	\$	\$	
+1% (100 basis points)	24,333	39,366	24,333	39,366	
-1% (100 basis points)	(24,333)	(39,366)	(24,333)	(39,366)	

The movements are due to higher / lower interest revenue from cash balances.

Liquidity Risk

Liquidity risk is managed through the entity's objective to maintain adequate funding to meet its needs, currently represented by cash and short term deposits sufficient to meet the consolidated entity's current cash requirements.

Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the years ended 30 June 2019 and 30 June 2018.

The Company monitors capital with reference to the net debt position. The Company's current policy is to keep the net debt position negative, such that cash and cash equivalents exceeds debt.

Employee benefits	16,440	2,941
Note 11. Income Tax	16,440	2,941
The prima facie tax receivable on loss before income tax is reconciled to the income tax exp	ense as follows:	
	2019 \$	2018 \$
Prima facie benefit on operating loss at 27.5% (2017: 28.5%) Tax effect of non-deductible and non-assessable items	432,440 (208,113)	640,384 (356,760)

A potential deferred tax asset, attributable to tax losses carried forward, amounts to approximately \$555,472 (2018: \$355,971) and has not been brought to account at reporting date because the directors do not believe it is appropriate to regard realisation of the deferred tax asset as probable at this point in time. This benefit will only be obtained if:

• the Company derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the loss and research and development expenditure to be realised;

(24,826)

(199,501)

lacua

33,396

(317,020)

- the Company continues to comply with the conditions for deductibility imposed by law; and
- no changes in tax legislation adversely affect the Company in realising the benefit from the deductions for the loss and research and development expenditure.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back scheme in place.

Capital risk management

The Company's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company would look to raise capital when an opportunity to invest in a business or a company was seen as value adding relative to the Company's current share price at the time of the investment. The Company is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The capital risk management policy remains unchanged from the previous financial reporting year.

Note 13. Equity - reserves

Note 19. Related party transactions

Key management personnel

Disclosures relating to key management personnel are set out in note 14 and the remuneration report in the directors' report.

Transactions with related parties

During the financial year, the following payments were made to key management personnel and their related parties:

- Mac Equity Partners (International) Pty Ltd, a company controlled by Bryant McLarty, received \$60,000 in advisory fees,
- and
- Audi Centre Perth, of which Bronte Howson is Dealer Principle, paid \$10,000 to the Company as a fee for providing concept design services for a new showroom and car storage facility at the dealership.

All transactions were made on normal commercial terms and conditions and at market rates.

Receivable from and payable to related parties

There were no amounts receivable or payable to related parties at 30 June 2019 and 30 June 2018.

Note 20. Events after the reporting period

No other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

Note 21. Reconciliation of profit after income tax to net cash from operating activities

	2019 \$	2018 \$

DIRECTORS' DECLARATION

In the directors' opinion:

- the attached financial statements and notes comply with the *Corporations Act 2001*, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the Company's financial position as at 30 June 2019 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

Who Yelkher.

Peter McUtchen Executive Director

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PARKD LIMITED

Opinion

We have audited the financial report of PARKD Limited (the Company) which comprises the statement of financial position as at 30 June 2019, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the Company's financial position as at 30 June 2019 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

How our audit addressed this matter

Key Audit Matters

Koy Audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Revenue Recognition	
As disclosed in the statement of profit or loss and other comprehensive income, the Company has recognised revenue of \$1,040,551 from contracts with customers for the year ended 30 June 2019. We have determined this to be a key audit matter because revenue is a significant account balance in the statement of profit or loss and other comprehensive income. The process of revenue recognition may be complex and involves significant management judgements including identification of performance obligations, assessing whether performance obligations are satisfied at a point in time or over time based on the terms of contracts with customers.	 Our audit procedures included: Assessing whether the Company's revenue recognition policies were in compliance with Australian Accounting Standards; Reviewing a sample of contracts with customers to assess whether the method for recognition of revenue was relevant and consistent with Australian Accounting Standards; Performing substantive testing on revenue on a sample basis to ensure that it has been recognised in accordance with Accounting Standards; Reviewing revenue transactions before and after the reporting date to ensure that revenue is recognised in the correct financial period; and Assessing appropriateness of the disclosures in the financial report.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2019, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2019.

In our opinion, the Remuneration Report of PARKD Limited, for the year ended 30 June 2019, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
